Email template

This email template has been created for you to send to potential EPQ students.

Dear [name],

Do you have an interest you'd like to explore further? Or perhaps you'd like to extend your learning beyond one of your A-level subjects? If so, the Extended Project Qualification (EPQ) could fulfil that wish.

The EPQ is an opportunity for you to take the lead on developing your independent research and study skills while researching a topic that you're passionate about.

You'll learn report-writing and presentation skills, conduct research and analyse and evaluate your findings, and complete your project with either a written report or by creating an artefact.

This student-led qualification puts you in charge and can enhance performance in your A-level subjects and beyond into higher education and the workplace.

Worth half an A-level and counting towards UCAS points, having an EPQ will help you to stand out from the crowd in university applications, plus many universities will give lower A-level offers to students with an EPQ .

Research has shown that EPQ students have an increased chance of achieving an A*–B at A-level, and are more likely to obtain a 1st or 2:1 at university.

To find out more please [insert your method of delivering this information to your students].
